

Our Sector Report – Nov. 9, 2005
By Jane Yazzie

[Transcribed by Heather Bergman for posting to the NWCOS website]

1. We wish to comment that our sector has been expected to meet a scientific standard that no other sector been expected to meet. We'll develop annotated bibliographies of some number of peer-reviewed scientific articles covering:
 - a. Habitat health requirements
 - b. Role of habitat conditions for various species in LSRA

2. Can NWCOS's alternative sectors agree to sponsor a community-service panel on essentials of habitat health for lands of LSRA?
 - a. When? If feasible, in December (after December 7 NWCOS meeting)
 - b. Who will organize? Our sector, with Luke Schafer taking on the assignment
 - c. Who could moderate? Our sector's suggestion is TNC's Chris Pague.
 - d. Our sector's list, so far, from which to choose one to represent our sector:
 - i. Dave Theobald, CSU, sprawl and habitat
 - ii. Alan Franklin, CSU, avian biologist
 - iii. Clait Braun, AZ, sage grouse and habitat
 - iv. Michael Solue, Paonia, conservation biologist
